

Suncoast Furniture began operations in Fort Myers, Florida in 1983. Our primary focus was serving the needs of our commercial customers - Hotels, Resorts, Condominiums, Restaurants, Apartments, and Country Clubs. The distribution area was small - just Tampa, Miami, and Orlando. The product line consisted of just vinyl strap chaise lounges, chairs, tables, umbrellas, and bases. Customers bought outdoor furniture directly from Suncoast for use on pool decks, lawns, patios, gardens, and beaches.

During 37 years of manufacturing, much has changed. We have added a number of seating options - sling, cushion, cast aluminum, and resin wicker. We expanded our product line to include a full assortment of pool and patio furniture for the residential and hospitality markets. We are a primary supplier to the residential furniture market, supplying furniture stores, fireplace and hearth stores, and specialty pool and patio casual furniture stores.

In recent past, we have created an alternative to resin wicker frame furniture, an industry leading fully upholstered outdoor furniture with our **Summer and Vectra Breeze** collections. **Summer and Vectra Breeze** provides a handsome and comfortable addition to any indoor or outdoor space and is 100% made by us in Fort Myers, Florida with all domestically sourced materials. It is truly weatherproof featuring upholstery and cushion fabrics from industry leaders like Phifer, Twitchell, and Sunbrella.

Suncoast manufacture fine quality commercial grade pool and patio furniture. We provide patented designs with excellent customer service, competitive prices and fastest delivery in the industry. **Please contact Hershey on cell phone 2399940547 (24 X 7 X 365) or visit our website www.suncoastfurniture.com to learn more about our products.**
